

2020

To Whom it May Concern,

The IM Certified™ designation provides assurance that the materials adhere to Illustrative Mathematics' philosophy and have been developed, reviewed, and approved by us.

IM Certified™ curricula are:

- guaranteed to be authored, reviewed, and updated by IM.
- assured to have the rigor, structure, and coherence as developed by the IM authors.
- available exclusively via IM Certified™ Distribution Partners who give the IM authors oversight to their IM curriculum digital and print experiences.

IM Certified™ Distribution Partners exclusively offer IM Certified™ curricula for free and via enhanced teacher and student experiences in digital and print formats. This means you have more choices and flexibility for print and digital to meet the needs of your district. Plus, you'll receive the most current versions available.

IM Certified™ Distribution Partners are the sole providers of the IM Certified™ curricula, strategically align with the mission and goal of IM, and guarantee their enhancements to the curriculum are thoroughly vetted by the IM authors. They are also always the first to carry the latest versions and give a portion of their proceeds back to IM for the ongoing development and enhancements of the curriculum and professional learning.

Our three IM Certified™ Curriculum Partners are: **Kendall Hunt, LearnZillion and McGraw-Hill.**

Sincerely,

William G. McCallum
Chief Executive Officer
